## **A gift day**

They change my return ticket to Barcelona and I have one more day to express myself, to repaint from the calm after the last days of preparations for departure. Penalty to go.... get away from this land that I feel so connected, let those people who have given me a space in their hearts.... but above all to separate from the person I love most.... my partner  
And all and the grief.... still together and united.... for something bigger

**The Mother Earth.... The ashes of the Love**  
Shortly after arriving in Barcelona and all I want is to paint and paint....

We did a ritual dedicated to Love and upon arrival I found the ashes.... and there they are, in the paint. While I paint I fought with the colors because it is not what I want.... Finally I give my hand to the brush and paint without the power of my mind.... and the strength of Mother Earth appears no more
